

John B. Weaver has a proven record of career accomplishments, significant industry experience and related skills, an inexhaustible interest in the evolution of Information Security as well as recognition as a foremost expert by his peers. Here's his story...

John B. Weaver – Principal Consultant, President and CEO

Having a passion for Information Security has lead to a career focused on information assurance

John B. Weaver is an IRCA-certified ISO 27001 Information Security Auditor and British Standards Institute-qualified in Implementation with over twenty years experience in Internet and Information Security. He has participated in the evolution of the Information Security industry in leadership roles within technology companies and as an expert guiding the activities of others using his considerable knowledge and experience.

In one of his previous roles, John directed Information Security for a global IP network providing security architecture, policy, regulatory compliance, operational processes and security metrics for both public and internal networks. Today he uses that practical experience along with his extensive training to provide security consulting to Fortune 1000 and International companies in energy, telecommunications, financial and healthcare vertical markets.

John also shares his knowledge with others. He has trained Law Enforcement on Internet Security related to criminal investigations and regularly works with the FBI on information sharing with others working in this field. John is also a sought-after speaker and frequent media resource on issues of Internet and Information Security, Cyberterrorism, regulatory compliance and protection of the National Infrastructure.

John's Career Accomplishments:

- Achieved **Certified Information System Security Professional (CISSP)** certification in July, 1998
- Received **Certified Information Systems Auditor (CISA)** status in September, 2002
- Completed requirements for **Certified Protection Professional (CPP)** in April, 2003
