JBW Group International Hosts ISO 27001 ISMS Lead Auditor Training

IRCA-Certified training to be offered in Minneapolis, Minnesota in August

Minneapolis, MN, June 22, 2007 – JBW Group International Inc. president and CEO, John B. Weaver, announced today that JBW Group will host a five-day lead auditor training course on ISO 27001 Information Security Management System (ISMS) from August 20-24, 2007. This training course is certified by The International Register of Certified Auditors (IRCA) and is only one of a handful of classes offered in the United States that provide a certificate of competence at the successful conclusion. This training is also an important step in the process of lead auditor certification through IRCA.

The class will be lead by Robert A. Aanerud - CISSP, CISA, CPP, CHSP, who is an IRCA-certified Lead Auditor and a leading expert in Information Security, Privacy and International Law. He is an internationally-respected Security and Privacy consultant and speaker, with over 39 years experience in technology, security, privacy, risk assessment, project management, training, and business continuity planning.

JBW Group has assisted many clients with a variety of information assurance activities and is pleased to once again share its expertise with others interested in this critical area. JBW Group experts have significant experience in all aspects of Information Security. These areas include policy and governance, privacy, legal and regulatory compliance assessment, business continuity management, incident response and many other areas that form a holistic approach to information security management.

For more information, contact JBW Group at 1.877.97.27001 or info@jbwgroup.com.

About International Standard ISO 27001

ISO/IEC 27001 describes an information security management standard for organizations that is quickly growing in popularity around the world. The basis for the standard is that an organization's most valuable asset is its information. As a valued asset, information must be managed and protected from internal and external threats. In order to protect its information assets, the organization must develop sustainable security measures and integrate those measures into its business processes.

About JBW Group International Inc.

JBW Group International was founded in 2002 to provide Information Security solutions to businesses in financial, telecommunications, healthcare, manufacturing and energy vertical markets. The JBW Group methodology is based on the internationally-recognized standards framework ISO 27001. This methodology is process-oriented, focuses on the business objectives of the client and incorporates the concepts of quality management and continuous improvement all with the objective of protecting the confidentiality, integrity and availability of critical information assets. Please visit the company's web site at www.jbwgroup.com for more information.
