Robert A. Aanerud joins JBW Group International

Internationally recognized information security expert now a member of the JBW Group team

Minneapolis, MN, April 7, 2008 – JBW Group International Inc. president and CEO, John B. Weaver, announced today that Robert A. Aanerud has joined JBW Group International as Principal - Training and Assessment Programs. Robert A. Aanerud has over 40 years of experience and is sought out for his depth of knowledge and experience in all areas of information security, privacy, ethics, responsibility, audit, and corporate governance. Robert's clients have included over 120 of the Fortune 500 corporations with operations in the United States, Canada and Europe, including financial services, insurance, telecommunications, gas and oil, chemical, pharmaceutical, and U.S., U.K., and Canadian, Central and South American federal agencies.

His experience includes national and international data protection, regulatory compliance and international law. He is a global authority on ISO 27001 Information Security Management System (ISMS) implementation and audit, and ISO 20000 Information Technology Service Management (ITSM) implementation and audit. His expertise extends to other internationally recognized standards for security and technology including Business Continuity Management, Physical Security Management, Information Risk Management, Food Safety Management and audit methodology for Quality and Environmental management systems among others.

Mr. Aanerud will partner with other JBW Group consultants to provide information assurance services to clients. "Given Bob's exemplary reputation and the high demand for his services throughout the industry, it is noteworthy that he has agreed to join our team," stated John B. Weaver. "Bob has taught IRCA-certified Lead Auditor training courses nearly 400 times in the last decade, making him uniquely qualified to help expand our training program as well. We are thrilled to add Bob's knowledge and experience as a dedicated resource for our clients."

About International Standard ISO 27001

ISO/IEC 27001 describes an information security management standard for organizations that is quickly growing in popularity around the world. The basis for the standard is that an organization's most valuable asset is its information. As a valued asset, information must be managed and protected from internal and external threats. In order to protect its information assets, the organization must develop sustainable security measures and integrate those measures into its business processes.

About JBW Group International Inc.

JBW Group International was founded in 2002 to provide Information Security solutions to businesses in financial, telecommunications, healthcare, manufacturing and energy vertical markets. The JBW Group methodology is based on the internationally-recognized standards framework ISO 27001. This methodology is process-oriented, focuses on the business objectives of the client and incorporates the concepts of quality management and continuous improvement all with the objective of protecting the confidentiality, integrity and availability of critical information assets.
